

Town of Bartlett Office of Selectmen

Quote opening meeting: November 18, 2011

Attendance: Selectman Douglas Garland, Selectman David Patch

Jeff Tenley, Engineer NRCS, Curtis Burke of Burke Construction and Matthew Howard of Glen Builders

Meeting opened at 03:15 PM

Selectman Garland opened the Brophy project quote.

Burke Construction was the only quote received - \$31,706.00

Selectman Garland opened the James/Sullivan project quote.

Burke Construction was the only quote received - \$113,949.00

Burke pointed out that there is a time frame issue as Coleman's pit was going to be closed Thursday – Sunday for the Thanksgiving holiday and they wouldn't be able to obtain the materials needed to do the job.

Selectman Garland informed Burke that he was going to have to telephone Chairman Chandler and let him know what the quotes were and he would get back to him by 05:30 PM today.

Burke and Howard left the meeting.

Jeff Tenley stated that these quotes were high. The Brophy quote is about \$11,000.00 higher than NRCS calculations and the James/Sullivan quote is about \$40,000.00 higher than NRCS calculated. Selectman Garland and Selectman Patch agreed that the quote was a lot higher than they had expected.

Jeff Tenley suggested the following:

1. Reject the quotes.
2. Have another site viewing on Wednesday the 23rd of November.
3. Start the actual work on the project on Monday after Thanksgiving as they still have to use the 10 day window to do the project.

Tenley also has a couple of more construction companies that might be interested in putting in a quote and he could give those contact numbers to the Selectmen so that the site viewing could go out to a bigger group of construction companies.

Selectman Garland made a motion to reject the quote and have another site viewing. Selectman Patch seconded the motion. Motion carried unanimously.

Selectman Garland telephone Chairman Chandler and let him know what was happening and he was in full agreement.

Selectman Garland and Selectman Patch telephoned the contractors and let them know of the new site viewing as they are hopeful that more would give quotes if there was a

different time frame to work in. Brenda Medeiros telephoned the homeowners involved and let them know what was happening.

Meeting adjourned at 05:00 PM.

Respectfully submitted,

Brenda Medeiros, Sec.
