Sign program 2007

Dear Business Owner,

The Bartlett Recreation Department is developing a new sign program in which your Business could be advertising along the fence of Precinct Field. What a great way to promote your business and support our causes as well.

The cost for the first year is \$200, which will include a metal 3x7 sign with vinyl text lettering. If you would like logos and/or graphics, these may cost extra. Gemini Signs would create the sign for you, and the recreation department would hang the sign from the spring to the fall.

The second and subsequent years, we would send you a statement for \$100. When we receive your payment, we will once again hang your sign for the upcoming season.

The funds that would be raised this year would go to the Bartlett Recreation Department Sign Program, earmarked for the use of ball field costs and repairs. This program would help us in our efforts for future repairs, or towards improvements that we might like to make to the field; like new fencing, dugouts, bases, infield dirt. The incoming funds would also help us with the costs that would be incurred throughout the year with the ball field. In 2006, the Bartlett Recreation Department paid out nearly \$5600 to make repairs to the field. By establishing this program, we would have monies available to make the necessary repairs in the future.

An application is attached; please return the application with your payment. We will move ahead and get your sign ordered and posted along the fence as soon as it comes in.

Thank you for your support.
